RE: QUALITY ASSURANCE FRAMEWORK FOR MEDICAL EDUCATION IN GEORGIA

The Embassy of Georgia has noted a large number of Zimbabweans seeking to pursue medical studies in Georgia.

The National Centre for Educational Quality Enhancement of Georgia has prepared and published comprehensive information on its quality assurance framework for medical education on its official website. The information covers key aspects of medical education in Georgia, including recognition by the World Federation for Medical Education (WFME) of the Centre's standards and procedures for quality assurance in medical education, as well as the duration and scope of higher medical education programmes.

The published materials provide information on the characteristics, regulatory framework and quality assurance of medical education in Georgia. The full documentation is available on the official website of the National Centre for Educational Quality Enhancement of Georgia at the following link: https://eqe.ge/en/page/static/971/samedicino-ganatlebis-khariskhis-uzrunvelyofa-saqartveloshi

Furthermore, the Ministry recommends that the information be disseminated to prospective medical students and relevant stakeholders to facilitate informed decisions on medical studies in Georgia.

Kind Regards,

Thatshelwa Sibanda
For: **Secretary for Foreign Affairs and International Trade**
